PERSONAL PROJECTS

E-commerce Website

Developed a dynamic e-commerce website as a personal project, focusing on product management, database integration, and user-friendly website functionality.

Blog Website

Built a dynamic blog website as a personal project with content management functionality, responsive design, and user-friendly navigation.

Personal Portfolio Website

Designed and developed a dynamic personal portfolio website using Laravel, including an admin panel to manage portfolio content, projects, skills, services, timeline, contact information, and other sections dynamically.

PRACTICAL EXPERIENCE

Personal Web Development Projects — Self-Directed

Developed multiple web applications independently to gain practical experience in full-stack web development. Currently building professional experience through personal projects and continuous learning. No professional client work yet.

CAREER OBJECTIVE

To start my professional career as a Full Stack Web Developer, gain real-world experience, continuously improve my technical skills, and contribute to building reliable, modern, and user-friendly web applications.
